PROJECTS

Computer Training Institute [🔗](#) | Jsp , Servlet ,Java,Jdbc,Mysql IDE-Netbeans

2024

- About project Developed a web-based application for a computer training institute to manage student enrollments, course schedules, and instructor assignments. Implemented a relational database using MySQL to handle backend data storage and retrieval. Utilized JSP and Servlets for dynamic content generation and user interaction, and employed JDBC for seamless database connectivity. Designed user-friendly interfaces and ensured efficient data management and security throughout the application. .
